Work Plan – 2021-2022

The Southern Nye County Conservation District (SNCCD) will use funding from grants to continue the removal of Salt Cedar and Russian Olive trees from Oasis Valley, Amargosa Valley, and Pahrump, which entails supervising and inspecting all weed eradication projects within the work area.

The SNCCD will work with the Bureau of Land Management, Nevada Division of Forestry, NRCS, NDOW, The Nature Conservancy, Amargosa Toad Working Group, USFWS, Beatty General Improvement District and the Beatty Town Board, Amargosa Town Board, to keep them apprised of the on-going progress with the Salt Cedar and other Noxious Weed Eradication Projects in their area.

Project Manager, Brad Hunt, will work with the SNCCD administrator in the performance of administrative work required in the preparation of reimbursement submittals, grant tracking reports, and any other administrative work required to effect prudent grant management.

The grant project manager will contact property owners to make them aware of the Salt Cedar Eradication Project, as well as promoting their participation in the project.

The SNCCD will work with the Bureau of Land Management, NDOW, USFWS, and the NV Division of Forestry, in the eradication of noxious weeds.

Aquatic approved herbicides will be used to control invasive plants closest to the Amargosa River. The SNCCD will participate in natural seeding propagation and planting of seedlings with the Nevada Department of Forestry and private Landowners.

Debris will be cleared and disposed of, along the river and at other work locations.

The SNCCD will also continue to work with the education projects promoting water conservation and environmental concerns. SNCCD will also continue to work on providing Nye County Schools, field trips to Ash Meadows and Tonopah Solar Plant for all 3-8th grade science classes. SNCCD will also use the local Pahrump TV media for education as well. Set up Booth at Annual Earth-day Event in Pahrump for continuing education on conservation.
