X. AGENCY UPDATES - *FOR DISCUSSION ONLY*

A. Nevada Department of Agriculture – Meghan Brown, Plant Industry Division There was no report today.

B. UNR-College of Agriculture Biotechnology and Natural Resources – Dr. Sherm Swanson, Range and Riparian Extension State Specialist for University of Nevada Cooperative Extension and Scientist for Nevada Agricultural Experiment Station Commissioner Swanson said Assembly Bill 407 proposes splitting Extension Services into two regions. One would include Clark, Nye, and Lincoln counties to be managed by UNLV and DRI as land grant institutions. Dean Bill Payne said this bill would not only affect Cooperative Extension, it could affect federal and state funds for the College of Agriculture, Biotechnology, and Natural Resources (CABNR) If any members have contacts at the Legislature please let them know we are opposed. This would also politicize the land grant mission.

C. Natural Resources Conservation Service – Ray Dotson, State Conservationist There was no report today.

D. Nevada Department of Wildlife – Connie Lee, Landowner Incentive Programs Ms. Lee said Wildlife has numerous bills in the Legislature.

A conservation easement has been completed in Elko County on 4,500 acres that was funded through NRCS, and facilitated and funded with the Rocky Mountain Elk Foundation as well. This is a working cattle ranch (Masini) that will help to protect 4,500 acres of key wildlife habitat via the conservation easement agreement. The project will also improve access to nearly 19,000 acres of adjacent public land.

Wildlife Heritage funds have come in for FY18 of \$785,000. Those funds come through allocations from sportsmen's dollars. There were \$820,000 in requests with some for private land conservation. One of the projects is for Pahrangat Valley habitat restoration on private land. There is funding for Northeast Elko CD, SANE, Humboldt Watershed CWMA, and Southern Nye CD for Beatty projects.

Habitat Division Workshops are ongoing for Habitat Restoration and Rehabilitation Strategic Frameworks. There is one in Elko next week.

The Partners for Conservation Development Program has received funding from BLM and work continues in Elko County for pinyon/juniper removal.

E. Nevada Association of Conservation Districts – Maggie Orr, President Commissioner Orr said NvACD has continued their involvement with Nevada Collaborative Conservation Network (NCCN). We worked with Duane Combs to draw our agreement money with NRCS. The potential for that meeting was the Intermountain West liaison position. We have decided that position could not possibly do everything that was requested.

Commissioner Tibbitts represented us at the Humboldt River Basin Network meeting. Commissioner Roukey will attend the NACD Training in Lincoln, Nebraska.

Spencer Scott was nominated as a Soil Health Champion. Newmont would like to connect with CD's in Area One.

We have been asked to participate on Dept. of Agriculture's Noxious Weed Review Committee.

Gary McCuin has submitted two articles to the Progressive Rancher regarding Conservation Districts.

We have fifteen signups for the Conservation Client Gateway with NRCS.

We have updated the website: we have added the PowerPoint from the Legislature, the Progressive Rancher article, and we have sent a request to the CD's for articles for the "CD Spotlight".

The annual meeting will be at the Carson Valley Inn in Minden and not in Virginia City. The dates are November 6-8, 2017.

There are twenty youths signed up for Range Camp. There are seventeen applications for the NvACD scholarships.

Commissioner Roukey said he received a copy of a grant application from Pheasants Forever for educational outreach. He will forward the information to Mr. Rubald.

F. Sagebrush Ecosystem Technical Team – Kelly McGowan, Program Manager There was no report today.

G. Others – There were no other reports.

10:30 a.m. Chairman Sicking called a break to switch telephones.

10:40 a.m. Chairman Sicking reconvened the meeting.

V. PRESENTATION AND DISCUSSION ON THE NEVADA CONSERVATION COLLABORATION NETWORK (NCCN) - *FOR DISCUSSION ONLY*

A. Sheila Anderson, Policy Analyst with the Governor's Office, and Cheva Gabor with the United States Forest Service provided handouts (the handouts are available from Sandy Quilici).

Ms. Anderson said this is a new process to enhance communication between ground level working groups and agencies up to the state directors of the agencies. This is focusing on implementation of the sage-grouse land use plan with BLM and USFS. We want to emphasize the input of local area working groups. This is a chance for the state to take a larger role in land use management on public lands.

Along with BLM, USFS, and NRCS we wanted to develop a process that would ensure consistent and good communication from the ground level up to the agency heads. As we developed the network there are four groups starting with the local stakeholders, agency field managers, the Technical Advisory Committee, and the Sagebrush Ecosystem Council.

BLM funded two workshops to improve collaborative training with the stakeholders. There has been facilitator's training which will help to build a network to help local groups. We are pursuing funding from BLM for meetings for capacity building. We will be filling a coordinator position.

There are three things the network has identified to do – the first is improve communication among the stakeholders, the second is working on capacity building, and the third is to create a pot of funding where all the agencies contribute and the money is distributed based on local priorities.

At the next SEC meeting there will be a block of time for the local working groups to talk about their projects.

Ms. Gabor said one thing for this network to work on is: in a couple of years the Forest Service will be doing Forest Plan revisions. Right now there are two separate plans, one for the Humboldt and one for the Toiyabe; we will be starting assessments in 2021. If there are specific plans in place we can put them in the Forest Plan revision.

Commissioner Smith said at the Cottonwood Ranch we have the Shoesole Resource Management Group and we're having our annual tour on the 13th and 15th of June. This specifically involves three ranches and the issues surrounding them. It is a collaborative team that has been in place for twenty years. We are dedicating this tour to the collaborative process.

11:15 a.m. Chairman Sicking announced a break.

11:25 a.m. Chairman Sicking reconvened the meeting.
