

CARSON CITY
AN EXECUTIVE ORDER BY THE GOVERNOR
INTERGOVERNMENTAL REVIEW OF FEDERAL PROGRAMS

WHEREAS, Presidential Executive Order 12372 revokes OMB Circular A-95 and provides for states to develop their own review process for federally funded programs and development projects, and

WHEREAS, the Executive Order directs federal agencies to accommodate the concerns of state and local elected officials in states where such a review process is in place, and

WHEREAS, the State of Nevada currently has a review system in place and operative at both state and local levels, and

WHEREAS, state and local elected officials have been consulted in the designation of this process.

NOW, THEREFORE, as Governor of the State of Nevada, I have directed that the state's current Review Process including local clearinghouses be retained. I am designating the Department of Administration of the State of Nevada as the "single point of contact" for transmitting review comments specific to federal Grant-in-Aid programs and direct development projects. I am further directing that all federal actions which are not exempt by law from Clearinghouse review are to be circulated to this agency.

The intent of this order is to comply with the Civil Rights Act of 1964, Section 102 (2) (c), of the National Environmental Policy Act of 1969, Title IV of the Intergovernmental Cooperation Act of 1968, and any other public laws and/or federal regulations pertaining to intergovernmental cooperation.

GOVERNOR Bob Melton, August 15, 1989
Secretary of State John S. ...
